

NICHOLAS DUNCAN

ABOUT ME

Bachelor of Business Administration graduate in Management Information Systems and Business Management from the University of Hawai'i at Mānoa, with experience across data analysis, IT project management (SDLC), business operations, finance, cybersecurity support, and AI-driven automation. Before tech, I spent years in high-volume hospitality, learning to stay composed under pressure and deliver consistently, the same instinct I bring to projects today.

PROJECTS

PROFESSIONAL EXPERIENCE

DRPSEC

Information Technology Intern

Fullerton, CA

January 2024 - May 2026

- Gained hands-on exposure to real-world IT and cybersecurity operations in a professional services environment, both in person and remotely
- Applied MIS and cybersecurity concepts to better understand client technology needs, risk management, and secure IT operations
- Gained practical exposure to IT and cybersecurity workflows, including how security controls support client operations and strengthen risk management
- Demonstrated reliability, professionalism, and strong communication when working through unfamiliar systems, tools, and technical concepts

Tiki's Grill & Bar

Bartender | Server | Barback

Waikiki, HI

August 2021 - November 2024

- Supported high-volume restaurant and bar service for 500-600+ guests per shift, with peak nights reaching 700+ guests in a busy Waikiki location
- Prepared cocktails, beer, and wine quickly and accurately while handling 200+ drink orders per shift during peak service periods
- Completed bar opening, closing, restocking, and inventory duties 4-5 shifts per week to reduce shortages and service delays
- Trained 5+ new team members on bar operations, service standards, POS procedures, and shift responsibilities

Northwestern Mutual

Associate Financial Advisor Intern

Honolulu, HI

May 2023 - September 2023

- Contributed to the development of life insurance and wealth management strategies for clients
- Worked on Whole Life and VUL Investment Program recommendations
- Did research on investment and insurance plans for clients needing retirement, income replacement, or estate planning advice
- Helped develop client-related financial plans in compliance with FINRA regulations
